

# VINTAGE NUT PLATES

## ***Capped & Self Sealing Nut Plates***

The capped styles prevent the screw threads from protruding through the nut plate. In addition, they come in a "self sealing" type which have an o-ring at the mating surface. The self sealing nut plates are available in steel and stainless steel.

**\*\*Disclaimer:** All items sold are in original new surplus condition. This is a collection from surplus aircraft parts inventories gathered over 45 years. Items sold are without certs or traceability and there is no warranty or guarantee expressed or implied.
